## SUMMARY

---

Browser development including control, planning, management, and decision making is one of my interests. I focus on details everyone else might miss. I am a quick learner, problem solver, and hard-working person.

## EDUCATION

---

1/2023 – 5/2023

### BOOTCAMP

meraki bootcamp Full stack develop

2015 – 2020

### JORDAN UNIVERSITY

Bachelor of electrical engineering

## PERSONAL PROJECT

---

### Website for Fundraising

- built a website using express, node.js, react, and MongoDB.

### Graduation project

- Node Mcu led announcement panel

### Design and Simulation

- Using LTSPICE Build and design CMOS INVERT-ER and NMOS Embedded Laboratory Project.
- Elevator Control Design a control algorithm, user interface, and other peripherals for an irrigation system using PIC 16F877A.

Build and test dynamic voltage restorer system (DVR) for compensation of sags and swell voltage.

- Using MATLAB

## WORK EXPERIENCE

---

12/2020 – 12/2022

electrical engineering

Saudi Jordanian industrial development company (jordina)

## SKILLS

---

- C++
- Matlap ,CCNA course from JU
- HTML ,CSS
- Node.js
- express
- mongos dB
